

EXL Named a 2021 Gartner Peer Insights Customers' Choice for Data and Analytics Service Providers

August 25, 2021

NEW YORK, Aug. 25, 2021 (GLOBE NEWSWIRE) -- EXL (NASDAQ: EXLS), a leading Analytics and Operations Management company, today announced it has been recognized, for the second consecutive year, as a Gartner Peer Insights Customers' Choice for Data and Analytics Service Providers.

The Customers' Choice distinction is given to select vendors who receive exemplary ratings from their verified customers. To achieve this recognition, vendors must have a minimum of 50 published reviews with an average overall rating equal or higher than the mean rating for that market. ^[1]

EXL is the only vendor to be recognized as Customers' Choice for two years in a row in the report: *Gartner Peer Insights 'Voice of the Customer': Data and Analytics Service Providers*.

"We are proud to once again be named in the Gartner Peer Insights Customers' Choice for Data and Analytics Service Providers," said Vivek Jetley, Executive Vice President and Global Head of Analytics at EXL. "For the second year in a row, our clients chose to highlight how we help them uncover deep insights from data and use these insights to drive significant outcomes for their business. It's an affirmation that our capabilities in advanced analytics, AI, and data management deliver the business value our customers need."

"Our clients depend on us to help them turn their data into a competitive advantage," said Anita Mahon, Executive Vice President and Chief Growth & Strategy Officer, EXL. "This recognition reaffirms our commitment to partnering with data-led companies to help them generate the insights they need to infuse intelligence and speed into decision making. It's an honor that our clients recognized us with this distinction."

Customers had this to say about EXL:

- ["EXL is more than just a vendor, they are a partner to build a business on."](#) – Senior Director in the Media Industry
- ["A combination of industry knowledge and technical expertise led to a valuable assessment and planning exercise and the development of a data strategy and roadmap from which we are already reaping business value."](#) – Data Services Manager in the Finance Industry
- ["It's been an amazing experience. Both the data analyst team and developers have done a tremendous job. The data services are totally flexible and easily adaptable in our organizational environment."](#) – Programmer Analyst in the Finance Industry
- ["EXL enables organizations that are data-driven with data management, sophisticated modeling capabilities, sentiment mining, and proprietary methodologies that deliver high-impact solutions."](#) – Team Lead in the Healthcare Industry

With a talented pool of more than 5,400 data engineers, data scientists, business consultants, and subject matter experts across the globe and proprietary data assets, EXL helps its customers create sustainable business outcomes through analytics. To achieve this, EXL teams effectively leverage in-house expertise across the analytics spectrum, from data management and cloud enablement, to advanced analytics and AI techniques. These capabilities combined with deep domain knowledge – a unique strength EXL has built based on over 20 years' experience across industries – deliver the consistent value for customers' reflected in their reviews.
