**PROXY STATEMENT**

---

**INFORMATION CONCERNING VOTING AND SOLICITATION**

This Proxy Statement is being furnished to you in connection with the solicitation by the board of directors of ExlService Holdings, Inc., a Delaware corporation (“us,” “we,” “our” or the “Company”), of proxies to be used at our 2009 Annual Meeting of Stockholders to be held at The Inn at Middletown, 70 Main Street, Middletown, Connecticut 06457, at 2:00 PM, Eastern Time, on June 24, 2009, and any adjournments or postponements thereof. This Proxy Statement and the accompanying form of proxy card are being mailed to stockholders on or about May 21, 2009.

**Who Can Vote**

Only stockholders who owned shares of our common stock at the close of business on May 11, 2009, the record date for the Annual Meeting, can vote at the Annual Meeting. As of the close of business on April 29, 2009, we had 29,923,833 shares of common stock outstanding and entitled to vote. Each holder of common stock is entitled to one vote for each share held as of the record date for the Annual Meeting. There is no cumulative voting in the election of directors.

**How You Can Vote**

If your shares are registered directly in your name with Registrar and Transfer Company, our transfer agent (which means you are a “stockholder of record”), you can vote your proxy by completing, signing, dating and returning the enclosed proxy card in the enclosed postage prepaid envelope. Please refer to the specific instructions set forth in the enclosed proxy card.

If you are the beneficial owner of shares held in the name of a brokerage, bank, trust or other nominee as a custodian (also referred to as shares held in “street name”), your broker, bank, trustee or nominee will provide you with materials and instructions for voting your shares.

*Voting at the Annual Meeting.* Voting by mail will not limit your right to vote at the Annual Meeting if you decide to attend in person. Our board of directors recommends that you vote by mail as it is not practical for most stockholders to attend the Annual Meeting. If you are a “stockholder of record,” you may vote your shares in person at the Annual Meeting. If you hold your shares in “street name,” you must obtain a proxy from your broker, bank, trustee or nominee giving you the right to vote the shares at the Annual Meeting.

**Revocation of Proxies**

You can revoke your proxy at any time before it is exercised in any of the following ways:

- by voting in person at the Annual Meeting;
- by submitting written notice of revocation to the inspector of elections prior to the Annual Meeting; or
- by submitting another properly executed proxy of a later date to the inspector of elections prior to the Annual Meeting.

**Required Vote; Effect of Abstentions and Broker Non-Votes**

*Quorum*

A quorum, which is a majority of the issued and outstanding shares of our common stock as of May 11, 2009, must be present to hold the Annual Meeting. A quorum is calculated based on the number of shares represented by the stockholders attending the Annual Meeting in person and by their proxy holders. If you indicate an abstention as your voting preference for all matters to be acted upon at the Annual Meeting, your shares will be counted toward a quorum but they will not be voted on any matter.

*Proposal 1: Election of directors*

Directors are elected by the affirmative vote of a plurality of shares present in person or represented by proxy and entitled to vote at the Annual Meeting. You may cast your vote in favor of electing the nominees as directors, withhold your vote on one or more nominees or abstain from voting your shares. For purposes of the vote on Proposal 1, abstentions will have no effect on the results of the vote.

*Other Proposals*

The ratification of the appointment of our independent registered public accounting firm and each other item to be acted upon at the Annual Meeting will require the affirmative vote of a majority of shares present in person or represented by proxy and entitled to vote at the Annual Meeting. You may cast your vote in favor of or against this proposal or you may abstain from voting your shares. For purposes of the vote on Proposal 2 or such other item to be acted upon at the Annual Meeting, abstentions will have the effect of a vote against this proposal.

If you submit your proxy, but do not mark your voting preference, the proxy holders will vote your shares **FOR** the election of the nominees for director and **FOR** the ratification of the appointment of our independent registered public accounting firm.

**Other Matters to be Acted upon at the Meeting**

Our board of directors presently is not aware of any matters, other than those specifically stated in the Notice of Annual Meeting, which are to be presented for action at the Annual Meeting. If any matter other than those described in this Proxy Statement is presented at the Annual Meeting on which a vote may properly be taken, the shares represented by proxies will be voted in accordance with the judgment of the person or persons voting those shares.

**Adjournments and Postponements**

Any action on the items of business described above may be considered at the Annual Meeting at the time and on the date specified above or at any time and date to which the Annual Meeting may be properly adjourned or postponed.

**Solicitation of Proxies**

We will pay the cost of printing and mailing proxy materials. Upon request, we will reimburse brokers, dealers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of shares of our common stock.

**Internet Availability of Proxy Materials**

Our notice of meeting, proxy statement and form of proxy card are available at our website at <http://phx.corporate-ir.net/phoenix.zhtml?c=186954&p=proxy>.

*All Annual Meeting attendees may be asked to present a valid, government issued photo identification (federal, state or local), such as a driver's license or passport, and proof of beneficial ownership if you hold your shares through a broker, bank, trust or other nominee, before entering the Annual Meeting. ## EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

#### *Overview*

We believe that the long-term success of companies that provide outsourcing and transformation services globally and deliver high quality services to clients is linked closely with their ability to recruit, train, motivate and retain employees at every level. In addition, there is significant competitive pressure in our industry for qualified managers with a demonstrated track record of achievement and the potential for higher achievement. Accordingly, it is critical that we recruit, train, motivate and retain highly talented individuals at all levels of the organization that are committed to our core values of accountability, innovation, excellence, urgency, integrity and mutual respect. We believe that our executive compensation programs are integral to achieving this end.

Our Compensation Committee bases its executive compensation programs on the following objectives, which guide us in establishing all of our compensation programs:

- *Compensation should be based upon performance.* Our programs should deliver top-tier compensation in return for top-tier individual and company performance; conversely, where individual performance and/or our performance falls short of expectations, the programs should deliver lower-tier compensation. In addition, the objectives of pay-for-performance and retention must be balanced. Even in periods of temporary downturns in our performance, the programs should continue to ensure that successful, high-achieving employees remain motivated and committed.
- *Compensation should balance long-term focus that is linked with stockholder value and short-term financial objectives.* Consistent with this philosophy, equity-based compensation should be higher for persons with higher levels of responsibility and greater influence on longer-term results, thereby making a significant portion of their total compensation dependent on long-term stock appreciation. In addition, compensation should focus management on achieving short-term performance goals in a manner that supports and ensures long-term success and profitability.
- *Compensation should be based on the level of job responsibility, individual performance and our performance.* As employees progress to higher levels in the organization, they are able to more directly affect our results and strategic initiatives, and therefore an increasing proportion of their pay should be linked to our performance and stockholder value.
- *Compensation should reflect the value of the job in the marketplace.* We compete for talent globally. In order to attract and retain a highly skilled work force, we must remain competitive with the pay of other employers who compete with us for talent in the relevant markets.
- *Compensation programs should be easy to understand.* We believe that all aspects of executive compensation should be clearly, comprehensibly and promptly disclosed to employees in order to effectively motivate them. Employees need to easily understand how their efforts can affect their pay, both directly through individual performance accomplishments and indirectly through contributing to our achievement of our strategic and operational goals. We also believe that compensation for our employees should be administered uniformly across the company and should be administered with clear-cut objectives and performance metrics to eliminate the potential for individual supervisor bias.

#### *Our Named Executive Officers*

Our named executive officers in 2008 were Vikram Talwar, our executive chairman, Rohit Kapoor, our president and chief executive officer, Matthew Appel, our chief financial officer, Amit Shashank, our general counsel, Rembert de Villa, vice president, head of transformation and managing principal, and Krishna Nacha, vice president and chief sales and marketing officer.

### *Key Compensation Actions for 2008*

In 2008, we set performance goals and granted bonus awards under our annual cash incentive bonus program. We granted stock options and restricted stock to named executive officers in 2008. In addition, in connection with the resignation of Matt Appel, our chief financial officer, we entered into a separation agreement.

### *Our Compensation Committee's Processes*

Our Compensation Committee has established a number of processes to assist it in ensuring that our executive compensation programs are achieving their objectives. Among those are the following:

- *Assessment of Company Performance.* Our Compensation Committee uses financial performance measures to determine a significant portion of the size of payouts under our cash incentive bonus program. Our financial performance measures, chosen to focus employees on improving both top-line revenues and bottom-line earnings, are established by our Compensation Committee annually at the beginning of the year and are applied uniformly across the company. When we achieve the established financial measures that are set forth in our annual operating plan, our employees that are eligible for cash incentive bonuses receive amounts that are at target. The cash incentive bonus for senior executives that have responsibility for our business lines is also tied to the financial or other performance of the business lines headed by such executives. These measures reflect targets that are intended to be aggressive but attainable. The remainder of an individual's payout under our cash incentive bonus program is determined by individual performance.
- *Assessment of Individual Performance.* Individual performance has a strong impact on the compensation of all employees, including Messrs. Talwar and Kapoor, our founder executive officers, and our other executive officers. The evaluation of an individual's performance determines a portion of the size of payouts under our cash incentive bonus program and also influences any changes in base salary. Early each year, our Nominating and Governance Committee meets separately by itself, with the Compensation Committee and with the founder executive officers to set their respective performance objectives for the year. The performance objectives are initially proposed by the founder executive officers and modified by the Nominating and Governance Committee based on the performance assessment conducted for the preceding year as well as for important priorities for the current year. Each agreed-upon objective is supplemented with key performance indicators. Our Nominating and Governance Committee's goal is to design key performance indicators that are objective and easily measurable. At the beginning of the following year, our Nominating and Governance Committee meets to conduct a performance review of our founder executive officers based primarily on their respective achievement of the agreed-upon objectives as well as the founder executive officers' contribution to our performance and other leadership accomplishments. This evaluation and a corresponding numerical performance rating is shared initially by our Nominating and Governance Committee with our Compensation Committee. After the discussion, our Compensation Committee translates the numerical performance rating into specific payouts under our cash incentive bonus program and shares the cash payout information with our founder executive officers and at the same time the Nominating and Governance Committee shares the performance assessment with our founder executive officers. Any changes in base salary are also affected by the Nominating and Governance Committee performance evaluation.

For our other named executive officers, our Compensation Committee receives a performance assessment and compensation recommendation from our founder executive officers. The performance assessments are based on self-evaluations by each of the direct reports of the founder executive officers, including the other named executive officers, and subsequent performance appraisals conducted by one or both founder executive officers in the presence of our Global Head of Human Resources. Our Compensation Committee reviews the performance assessments of these executives with and without our founder executive officers based on the achievement of established objectives by

## [Table of Contents](#)

each executive officer and his or her organization, his or her contribution to our performance and other leadership accomplishments as well as on an evaluation of the executive officer's competence. In determining the numerical performance rating that translates into specific payouts under our cash incentive bonus program and also influences any changes in base salary, our Compensation Committee may also exercise its judgment based on the board's interactions with such executive officers.

- *Benchmarking and Use of Compensation Consultant.* Our Compensation Committee reviews our executive compensation programs relative to publicly available compensation data compiled directly for our Compensation Committee by our Global Head of Human Resources for a group of companies that provide business and technology services. Our Global Head of Human Resources prepares the information for our Compensation Committee based on input from Equilar, Inc., a compensation data provider that we have engaged for the sole purpose of providing such data. At the time that compensation decisions were made for our U.S.-based executive officers in 2008, our Compensation Committee reviewed the publicly available information for companies that provided similar services and that had similar market capitalizations or annual revenues. In addition, they considered companies that were located in the most relevant geographic area for each executive officer. Different companies were considered for the compensation benchmark review of each executive officer. Where compensation information was not publicly disclosed for a specific management position for companies that provide business and technology services, our Compensation Committee reviewed data corresponding to the most comparable position and also considered the comparative experience of executives. The list of companies against which we benchmarked the compensation of our U.S.-based executive and other senior officers in 2008 included the following companies:

Similar Business	Comparable Market Capitalization or Revenues	Others
Cognizant Technology Solutions Corporation	eTelecare Global Solutions, Inc.	Blackboard, Inc.
Genpact Limited	iGate Corporation	Huron Consulting Group Inc.
Kanbay International, Inc.	LECG Corporation	
Sapient Corp.	PeopleSupport Inc.	
Sykes Enterprises, Inc.	Syntel, Inc.	
Teletch Holdings, Inc.		
WNS (Holdings) Ltd.		

Our Compensation Committee will review and revise as appropriate from time to time the list of companies with publicly available compensation information against whom we may benchmark our compensation programs, to ensure that such list includes those companies that are most comparable to us with regard to services provided and relevant geographic areas. For geographic areas where we are not able to obtain reliable publicly available compensation data for our executive officers because such information is not legally required to be disclosed, such as India, our Global Head of Human Resources uses data from a variety of private and informal sources, none of which are paid for providing such data.

Our Compensation Committee uses the data primarily to ensure that our executive compensation programs, including for executive officers are competitive. We incorporate flexibility into our compensation programs and in the assessment process to respond to and adjust for the evolving business environment. Accordingly, our Compensation Committee adjusts individual executive compensation elements based on changes in job responsibilities of the executive, the performance of the executive or the combination of qualifications and skills that an executive uses to enhance our

---

## [Table of Contents](#)

performance. Neither we nor our Compensation Committee has any contractual arrangement with any compensation consultant who has a role in determining or recommending the amount or form of director or executive officer compensation.

- *Total Compensation Review.* Our Compensation Committee designs the categories and presentation of compensation information required to evaluate each executive's base pay, cash incentive bonus and equity incentives when changes in compensation are considered by our Compensation Committee and requests our Global Head of Human Resources to compile such information. Although many compensation decisions are made in the first quarter of the fiscal year, our compensation planning process neither begins nor ends with any particular Compensation Committee meeting. Compensation decisions are designed to promote our fundamental business objectives and strategy. Our Compensation Committee periodically reviews related matters such as succession planning, evaluation of management performance and consideration of the business environment and considers such matters in making compensation decisions.

Each named executive officer and our other executive officers is party to an employment agreement or letter that sets forth the terms of his or her employment, including compensation. The employment agreements for our founder executive officers, which were amended and restated in December 2008 to reflect the changes in the revised titles and responsibilities of Messrs. Talwar and Kapoor, have specified expiration terms. The employment letters for our other executive officers do not have specified expiration terms and are terminable by either the executive or us at will. If decisions are made by our Compensation Committee that materially change the terms of employment of an individual executive officer or modify existing compensation programs, we communicate the information to the concerned officer or company-wide, as the case may be.

### *Components of Executive Compensation for 2008*

For 2008, the compensation of executive officers consisted of the following five primary components:

- base salaries or, in the case of our executive officers based in India, fixed compensation;
- cash incentive bonuses;
- equity incentives of stock options and/or restricted stock;
- benefits and perquisites; and
- severance benefits.

Our mix of compensation elements is designed to reward recent results, motivate long-term performance and encourage our executives to remain with us for longer terms through a combination of cash and equity incentive awards. Base salaries and cash incentive bonuses are designed to reward annual achievements and be commensurate with the executive's scope of responsibilities, demonstrated leadership abilities, and management experience and expertise. Our other elements of compensation focus on motivating and challenging the executive to achieve sustained and longer-term results. We generally do not adhere to rigid formulas or necessarily react to short-term changes in business performance in determining the amount and mix of compensation elements. However, we do rely on the formulaic achievement of established financial performance measures in connection with determining a significant portion of the cash incentive bonuses for our executive officers and other members of management. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our executive officers to deliver superior performance and retain them to continue their careers with us on a cost-effective basis.

Our Compensation Committee believes that these programs balance both the mix of cash and equity compensation, the mix of currently-paid and longer-term compensation, and the security of comprehensive and severance benefits in a way that furthers the compensation objectives discussed above. The periodic review of each executive's base pay, cash incentive bonus and equity incentives by our Compensation Committee is

---

## [Table of Contents](#)

intended to maintain the appropriate balance for each executive officer based on their roles and responsibilities. With the exception of compensation elements that are linked to individual performance, our Compensation Committee believes that each of our founder executive officers should receive substantially equivalent compensation.

Following is a discussion of our Compensation Committee's considerations in establishing each of the compensation components for our executive officers.

### *Base Salary*

Base salary is a fixed element of employees' annual cash compensation, the payment of which is not tied to our performance. We provide the opportunity for each of our named executive officers and other executive officers to earn a competitive annual base salary. We provide this opportunity to attract and retain an appropriate caliber of talent for the position and to provide a base wage that is not subject to our performance risk. We review base salaries for our named executive officers annually in the first half of each year, and increases are based on our performance and the executives' individual performance. Base salary determinations reflect the individual's experience, knowledge, skill set and the market value of that skill set. In setting base salaries for 2008, our Compensation Committee considered the following factors:

- *Individual performance.* As described above under "Our Compensation Committee's Processes," base salary increases take into account individual performance and competence assessments.
- *Market data specific to the executive's position, where applicable.* As noted above, our Compensation Committee used certain geographical and market data to test for reasonableness and competitiveness of base salaries, but we also exercised subjective judgment based on the rapid growth of our industry and our view of our compensation objectives.
- *Consideration of the mix of overall compensation.* Consistent with our compensation objectives, as employees progress to higher levels in the organization, a greater proportion of overall compensation is directly linked to our performance and stockholder value. Thus, for example, the founder executive officers' overall compensation is more heavily weighted toward equity compensation than that of the other executive officers.

Our founder executive officers entered into new employment agreements prior to our initial public offering in 2006 to more closely align the terms of such agreements with those of executives holding equivalent roles at other public companies, including periodic compensation adjustments and annual equity awards. At the time of the negotiation of the employment agreements with Messrs. Talwar and Kapoor in 2006, our Compensation Committee did not make any changes to their salary levels but increased the base pay for each of our founder executive officers to \$420,000 effective January 2007. In 2008, our founder executive officers did not receive an increase in base pay although their respective employment agreements were amended and restated in December 2008 in large part to update responsibilities, perquisite entitlements and to take into account tax code section 409A.

Mr. de Villa joined us in March 2008. Mr. de Villa's base salary was determined through an arm's-length negotiation during the hiring process and based upon his level of responsibility and our assessment of Mr. de Villa's experience, skills and knowledge and our general compensation guidelines.

In 2008, as a component of our focus on cost management and to promote retention of senior executives, we elected to provide an equity award of restricted stock to certain of our executive officers and other senior employees instead of any increases in base pay with a standard vesting schedule with 10% vesting on the first anniversary of the date of grant and an additional 20%, 30% and 40% vesting on each successive anniversary of that date. The amount of the equity award was determined based on the founder executive officer's evaluation of the executive officer's individual performance and was prorated based on the period of time in 2007 that the

---

## [Table of Contents](#)

executive officer was employed by us. The founder executive officers made recommendations for the other named executives and our Compensation Committee reviewed similar considerations for such named executives.

With regard to Mr. Appel's performance, our Compensation Committee gave particular weight to Mr. Appel's role in strengthening the finance organization, leadership in achieving compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and other individual contributions. In April 2008, our Compensation Committee awarded Mr. Appel 1,100 shares of restricted stock.

With regard to Mr. Shashank's performance, our Compensation Committee gave particular weight to Mr. Shashank's role in enhancing our compliance programs, improving productivity and controlling cost within the legal organization and enabling us to meet certain key business objectives for 2008. In April 2008, our Compensation Committee awarded Mr. Shashank 1,000 shares of restricted stock.

With regard to Mr. Nacha's performance, our Compensation Committee gave particular weight to Mr. Nacha's role in strengthening the sales and marketing department, enhancing the pipeline of prospective clients and other individual contributions. In April 2008, our Compensation Committee awarded Mr. Nacha 250 shares of restricted stock.

The following table sets forth the base salary earned during 2008 by each of our named executive officers.

<u>Name</u>	<u>Salary (\$)</u>
Vikram Talwar	420,000
Rohit Kapoor	420,000
Matt Appel	375,000
Amit Shashank	297,000
Krishna Nacha	225,000
Rembert de Villa	249,263

### *Cash Incentive Bonus*

We have established an annual cash incentive bonus program in order to align executive officers' and certain other employees' goals generally with our revenue and profitability objectives for the current year. A cash incentive bonus program was approved by our Compensation Committee in early 2008 with respect to the cash incentive bonuses to be paid in 2009 to all eligible employees worldwide. The aggregate amount of all cash bonuses paid for 2008 did not exceed the aggregate cash incentive bonus pool approved by our Compensation Committee in 2008. Under the plan, bonus target amounts, expressed as a percentage of base salary, are established for participants at the beginning of each year unless employment agreements contain different terms. Funding of possible bonus payouts for the year are determined by our financial results for the year relative to predetermined performance measures, and may be increased or decreased depending upon the executive's individual performance against his or her non-financial goals. When our performance falls short of target, our aggregate funding of the annual cash bonus incentive pool declines, with no funding of the bonus pool if we do not achieve at least 90% of each of our established financial performance objectives. At the end of the performance period, our Compensation Committee has discretion to adjust an award payout from the amount yielded by the formula. For 2008, our Compensation Committee did not adjust an award payout for any executive officer. Our Compensation Committee considered the following when establishing the awards for 2008:

- *Bonus Targets.* Bonus targets were based on job responsibilities and comparable market data. Our objective was to set bonus targets such that total annual cash compensation was within the broad middle range of market data and a substantial portion of that compensation was linked to our performance. Consistent with our executive compensation policy, individuals with greater job

## [Table of Contents](#)

responsibilities had a greater proportion of their total cash compensation tied to our performance through the bonus plan. Thus, our Compensation Committee established the following bonus targets for 2008 (expressed as a percentage of base salary as well as maximum bonus targets) for each named executive officer:

Name	Bonus Target
Vikram Talwar	75% of base salary; maximum bonus of 150% of base salary
Rohit Kapoor	75% of base salary; maximum bonus of 150% of base salary
Matt Appel	50% of base salary; maximum bonus of 100% of base salary
Amit Shashank	40% of base salary; maximum bonus of 80% of base salary
Krishna Nacha	75% of base salary; maximum bonus of 150% of base salary
Rembert de Villa	70% of base salary; maximum bonus of 140% of base salary; in each case pro rated to April 15, 2008, Mr. de Villa's joining date.

As employees progress to higher levels of management, they are able to more directly affect our results and strategic initiatives, and therefore an increasing proportion of their pay is linked to our financial performance. For 2008, the target bonus for each of our executive officers, except for Mr. Nacha, was 60% dependent on our financial performance and 40% dependent on individual performance. The cash incentive bonus for Mr. Nacha was 60% dependent on individual performance and 40% dependent on our financial performance.

- *Our performance measures.* For all employees whose cash incentive bonus is linked to our financial performance, including our executive officers, our Compensation Committee established 2008 financial performance measures for us based on a weighting of 50% on revenues (target of \$205.0 million) and 50% on the profitability measure of earnings before interest and taxes adjusted to exclude the effect of expenses associated with stock compensation as well as the amortization of intangibles as well as foreign exchange gains or losses (Adjusted EBIT) (target of \$30.3 million). Our Compensation Committee also set forth the 2008 financial performance measures for our business lines in connection with determining the incentive bonus for employees, including senior executives, whose incentive bonuses are also tied partially to the financial performance of the relevant business lines.
- *Changes to Bonus Pool.* For each performance criterion, the amount of bonus pool funding decreases by between 7% and 8%, for each 1% by which we miss our target (and if we do not attain at least 90% of the revenues target or the Adjusted EBIT target, then there will be no bonus pool funding in respect of that performance criteria). For each 1% by which we miss our revenues target (up to 90%), the bonus pool funding in respect of that criteria decreases by between 7% and 8%, and for each additional 1% by which we exceed our revenues target, the bonus pool funding in respect of that criteria increases by 13% (with a maximum of 200% funding for that criteria if we equal or exceed 107.5% of the revenues target). For each 1% by which we miss our Adjusted EBIT target (up to 90%), the bonus pool funding in respect of that criteria decreases by between 7% and 8%, and for each additional 1% by which we exceed our Adjusted EBIT target, the bonus pool funding in respect of that criteria increases on an increasing scale of 5% to 9% (with a maximum of 200% funding for that criteria if we equal or exceed 115% of the gross revenue target). With respect to Mr. de Villa, the 60% financial component is separated into two parts: 30% based on our financial performance against the targets as described above, and 30% based on the financial performance of our research and analytics and advisory services business lines and measured in equal parts based on the revenues target of \$22 million and \$16 million for the research and analytics and advisory services business lines, respectively, and gross margin percentage targets of 37% and 38% for the research and analytics and advisory services business lines, respectively.

---

## [Table of Contents](#)

Our Compensation Committee believes that this mix of performance measures encourages employees to focus appropriately on improving both top-line revenues and bottom-line earnings. The measures are also effective motivators because they are easy to track and clearly understood by employees. In 2008, payouts could have ranged from zero to 200% of target depending on our performance. Our Compensation Committee established the financial performance measures (that is, the thresholds at which the payouts would be percentage for our business lines) for both revenues and Adjusted EBIT (and revenues and gross margin percentage for the research and analytics and advisory services business lines) by applying the principles described above under “Our Compensation Committee’s Processes.”

- *Individual performance measures.* These goals are designed to balance the attention of our named executive officers between the achievement of near term objectives that improve specific processes or performance metrics and somewhat longer term objectives for us. While some of the goals are subjective, certain other goals are capable of objective measurement such as client and employee satisfaction measures. For example, for Mr. Nacha, a number of the individual performance measures, which accounted for the 60% of target bonus dependent on individual performance, are based on sales goals for each business line as well as the robustness of the pipeline of prospective clients. In 2008, payouts could have ranged from zero to 200% of target depending on individual performance as described above under “Our Compensation Committee’s Processes.”

In establishing each of Mr. Talwar’s and Kapoor’s cash incentive bonus for 2008, our Compensation Committee applied the principles described above under “Our Compensation Committee’s Processes.” Our Nominating and Governance Committee assessed each of our founder executive officer’s performance for 2008. They considered each founder executive officer’s accomplishment of objectives that had been established at the beginning of the year and the Nominating and Governance Committee’s own assessment of their performance, including against the pre-established goals. They noted that under the leadership of our founder executive officers, in 2008, we achieved revenues of \$198.3 million and Adjusted EBIT of \$20.2 million. As a result of our not achieving the predetermined Adjusted EBIT target, that portion of the bonus pool funding in respect of Adjusted EBIT was reduced to \$0, while 78% of the bonus pool was funded for achievement of 97% of the predetermined revenues target. In awarding cash incentive bonuses of \$237,510 and \$244,125 to Mr. Talwar and Mr. Kapoor, respectively, each of which was less than the target bonus of \$315,000 for each of Mr. Talwar and Mr. Kapoor, our Compensation Committee also noted that our financial performance was commendable in light of the challenging macroeconomic environment, robust operations performance and strengthened client relationships, and reflected Mr. Talwar’s and Kapoor’s performance relating to their significant individual performance goals, which encompassed the CEO succession planning and transition process, development of operations and other organization capabilities and development and strengthening of the business development team, and in the case of Mr. Kapoor, our achievement of key operating objectives.

Our founder executive officers made recommendations for our other named executive officers employed by us at the end of 2008 and our Compensation Committee approved the recommendations after reviewing similar considerations for such named executive officers.

On October 14, 2008, we announced that Mr. Appel would resign effective March 16, 2009, which resignation date was subsequently extended to May 15, 2009. In connection with his resignation, Mr. Appel entered into a separation agreement with us which entitled him to a maximum bonus of \$175,000 if Mr. Appel satisfied certain personal performance goals during his tenure with us in addition to assisting in a timely filing of our Annual Report on Form 10-K for the fiscal year ending December 31, 2008. As a result of Mr. Appel’s achievement of his personal performance goals, Mr. Appel was paid a bonus of \$175,000.

Our Compensation Committee awarded Mr. Shashank a cash incentive bonus of \$89,575, which was less than the target bonus of \$118,800. Our Compensation Committee recognized and gave additional weight to Mr. Shashank’s individual performance goal achievements, including Mr. Shashank’s role in enhancing our compliance programs, improving productivity and controlling cost within the legal organization, contributing to

the executive leadership team's strategic planning process, effectively engaging with and supporting the Board and enabling us to meet certain key business objectives for 2008.

Our Compensation Committee awarded Mr. Nacha a cash incentive bonus of \$157,950, which was less than his target bonus of \$168,750. They noted that the new client revenues generated by the sales and marketing department under Mr. Nacha's leadership grew significantly over the preceding year. Our Compensation Committee recognized and gave additional weight to Mr. Nacha's individual performance goal achievements, including Mr. Nacha's role in strengthening the sales and marketing department, enhancing the pipeline of prospective clients and other individual contributions.

Our Compensation Committee awarded Mr. de Villa a cash incentive bonus of \$194,606, which reflected the number of days that Mr. de Villa was employed with us during 2008, and which was in excess of his target bonus of \$174,484 for such period. They noted that, for purposes of calculating Mr. de Villa's bonus, the research and analytics business line achieved a gross margin percentage in excess of the target and the advisory service business line achieved revenues in excess of the target. Our Compensation Committee recognized and gave additional weight to Mr. de Villa's individual performance goal achievements, including leadership of the transformation business and the superior business and financial performance of the transformation business as well as the integration of the various businesses comprising the transformation business (including the research and analytics and advisory services business lines).

Bonuses were paid to our named executive officers in March 2009.

The following table sets forth the bonus paid to each of our named executive officers.

<u>Name</u>	<u>Bonus (\$)</u>
Vikram Talwar	237,510
Rohit Kapoor	244,125
Matt Appel	175,000
Amit Shashank	89,575
Krishna Nacha	157,950
Rembert de Villa	194,606

### *Equity Incentives*

We provide the opportunity for our named executive officers and other executives to earn a long-term equity incentive award. Long-term incentive awards provide employees with the incentive to stay with us for longer periods of time, which in turn, provides us with greater stability as we grow. These incentives foster the long-term perspective necessary for continued success in our business because the value of the awards is directly linked to long-term stock price performance and also ensure that our executive officers are properly focused on stockholder value. We review long-term equity incentives for our named executive officers and other executives periodically and generally make grants to executives, including our executive officers, for whom grants are recommended by our former executive officers, at one or more pre-scheduled meetings of our Compensation Committee in March or April.

Prior to our initial public offering, our stock option program was based on grants that were individually negotiated in connection with employment agreements and other grants to our executives. In 2008, we employed two forms of equity incentives to executive officers granted under our 2006 Omnibus Award Plan, which we refer to as the 2006 Plan: stock options and restricted stock. On January 29, 2009, our shareholders approved an amendment to our 2006 Plan increasing the overall share pool to 7,729,238 shares by adding 4,000,000 shares. We increased the share pool to make sure we would have enough shares for awards under the 2006 Plan in coming years.

### *Equity Incentives—Stock Options*

Stock options align employee incentives with stockholders because options have value only if the stock price increases over time. In this sense, stock options are a motivational tool. Our ten-year options under our 2006 Plan are granted at the average of the high and low price on the trading day immediately prior to the date of grant. Stock options granted under our 2006 Plan generally vest over a four year period with 10% vesting on the first anniversary of the date of grant, an additional 20% vesting on the second anniversary of the grant date, an additional 30% vesting on the third anniversary of the grant date and the remaining 40% vesting on the fourth anniversary of the grant date. Our Compensation Committee has, on occasion, altered the vesting cycle based on unique circumstances associated with a particular grant. For example, such occasions have arisen where there has been a delay in the finalization of an employee's employment agreement or where we determined that it was appropriate to credit an employee for service performed by such executive prior to our Compensation Committee's approval of such grant. The four year vesting period helps focus employees on long-term growth and helps to retain key employees. Our 2006 Plan prohibits the repricing of stock options under our 2006 Plan without the approval of our stockholders.

Our Compensation Committee considered the following when making 2008 option grants to all employee recipients, including our executive officers:

- *Grant size.* In determining the number of options to be granted to senior executive officers, our Compensation Committee took into account the individual's position, scope of responsibility, ability to affect profits and stockholder value, the individual's historic and recent performance, the value of stock options in relation to other elements of total compensation and total compensation amounts paid by peer group companies.
- *Grant Timing and Price.* Our Compensation Committee's procedure for the timing of equity grants (stock options, restricted stock or any other form of equity award permitted under our 2006 Plan) ensures that grant timing is not being manipulated to result in a price that is favorable to employees. The annual equity grant date for all eligible employees, including executive officers, is generally in March or April (depending on when our Compensation Committee holds its pre-scheduled meeting or meetings discussed above). The grant date timing coincides with our calendar-year-based performance management cycle, allowing supervisors to deliver the equity awards close in time to certain aspects of individual performance appraisals, which increases the impact of the awards by strengthening the link between pay and performance. However, some exceptions to the annual grant date are expected. Equity incentive grants for Messrs. Talwar and Kapoor are generally considered in January of each year. Other exceptions to the annual equity grant date occur periodically for matters such as new hires of executive officers (including Mr. de Villa in 2008). The primary annual grant date is established by our Compensation Committee well in advance—typically in the calendar year prior to our Compensation Committee meeting and on the same date as the meetings of our board of directors and other committees. Scheduling decisions of our Compensation Committee meetings are made without regard to our anticipated earnings or other major announcements.

Our Compensation Committee granted each founder executive officer a stock option grant of 150,000 shares of our common stock with a per-share exercise price of \$16.96, 25% of which vested on January 23, 2009 and the remainder of which will vest in additional 25% increments on each of January 23, 2010, January 23, 2011, and January 23, 2012.

Grants for new hires are generally made at the next scheduled Compensation Committee meeting after the joining date of such hire. In connection with the entry into our employment agreement with Mr. de Villa in March 2008, we granted Mr. de Villa a stock option grant of 40,000 shares of our common stock, with a per-share exercise price of \$23.82. Mr. de Villa's stock option grant in 2008 vests over a four-year period with 10% vesting on the first anniversary of the date of grant, which was Mr. de Villa's joining date, an additional 20% vesting on the second anniversary of the date of grant, an additional 30% vesting on the third anniversary of

the date of grant and the remaining 40% vesting on the fourth anniversary of the date of grant, subject generally to continued employment through each such vesting date.

### ***Equity Incentives—Restricted Stock***

Restricted stock awards offer executives the opportunity to receive shares of our common stock on the date that the restriction lapses and serve both to reward and retain executives since the value of the restricted stock awards is linked to the price of our stock on the date that the restriction lapses. In addition, restricted stock awards are potentially less dilutive to stockholders' equity since restricted stock awards are full value awards and our Compensation Committee can award fewer restricted stock awards than an equivalent value of stock options. As with stock options, restricted stock awards provide a significant degree of alignment of interests between our executive officers and stockholders. Restricted stock awards have only been issued under our 2006 Plan.

Grant values for individuals were determined based on individual performance and comparable market data. Consistent with our compensation philosophy, individuals at higher levels received a greater proportion of their total pay in the form of equity.

At its regularly scheduled meeting in April 2008 at which equity awards are traditionally considered, our Compensation Committee approved equity awards to the executives for whom grants are recommended by our founder executive officers. In April 2008, our Compensation Committee approved a grant of 6,000 shares of restricted stock to Mr. Appel, 7,500 shares of restricted stock to Mr. Shashank and 2,000 shares of restricted stock to Mr. Nacha. Each of the restricted stock awards to Messrs. Appel, Shashank and Nacha vest over a four-year period with 10% vesting on the first anniversary of the date of grant and an additional 20%, 30% and 40% vesting on each successive anniversary of that date. These awards were in addition to the awards made to Messrs. Appel, Shashank and Nacha instead of any increases in base pay as described above under "Components of Executive Compensation for 2008—Base Salary."

In connection with the entry into our employment agreement with Mr. de Villa in March 2008, we granted Mr. de Villa 4,000 restricted shares of our common stock, that vest over a four-year period with 10% vesting on the first anniversary of the date of grant, which was Mr. de Villa's joining date, an additional 20% vesting on the second anniversary of the date of grant, an additional 30% vesting on the third anniversary of the date of grant and the remaining 40% vesting on the fourth anniversary of the date of grant, subject generally to continued employment through each such vesting date.

The following table sets forth the number of shares of restricted stock and stock options granted to each of our named executive officers in 2008.

<u>Name</u>	<u>Restricted Stock (#)</u>	<u>Stock Options (#)</u>
Vikram Talwar	—	150,000

### ***Benefits and Perquisites***

We offer employee benefits coverage in order to:

- provide our global work force with a reasonable level of financial support in the event of illness or injury, and
- enhance productivity and job satisfaction through programs that focus on work/life balance.

The benefits available for all U.S. employees and executive officers include customary medical and dental coverage, disability insurance and life insurance. In addition, our 401(k) Plan provides a reasonable level of retirement income reflecting employees' careers with us. A number of our U.S. employees, including executive officers, participate in these plans.

The cost of employee benefits is partially borne by our employees, including our executive officers.

We do not provide significant perquisites or personal benefits to executive officers other than our founder executive officers. Each founder executive officer is provided a limited number of perquisites whose primary purpose is to minimize distractions from his attention to our important initiatives and to be competitive. A discussion of the benefits provided to the founder executive officers is provided under "Employment Agreements" below.

### *Severance Benefits*

We are obligated to pay severance or other enhanced benefits to our named executive officers upon termination of their employment under the terms of their respective employment agreements that were negotiated through arms'-length contract negotiations. A discussion of the severance and other enhanced benefits provided to our named executive officers currently employed by us is provided under "Potential Payments Upon Termination or Change in Control" below.

We have provided change in control severance protection for certain of our executive officers, including our named executive officers. Our Compensation Committee believes that such protection is intended to preserve employee morale and productivity and encourage retention in the face of the disruptive impact of an actual or rumored change in control. In addition, for executive officers, the program is intended to align executive officers' and stockholder interests by enabling executive officers to consider corporate transactions that are in the best interests of our stockholders and other constituents without undue concern over whether the transactions may jeopardize the executive officers' own employment.

Senior executive officers, including our named executive officers, have enhanced levels of benefits based on their job level, seniority and probable loss of employment after a change in control. We also consider it likely that it will take more time for senior executive officers to find new employment. Therefore senior executive officers generally are paid severance for a longer period:

- *Accelerated vesting of equity awards.* All executive officers receive an advancement of vesting by one year of all unvested equity awards at the time of termination of employment.
- *Covered terminations.* Eligible executive officers are eligible for payments if, within one year of the change in control, their employment is terminated (i) without cause by us or (ii) for good reason by the executive officer.
- *Severance payment.* Eligible terminated executive officers receive severance payments reflecting the expected duration for such executive officers to find new employment.
- *Benefit continuation.* Eligible terminated executive officers receive basic employee benefits such as health and life insurance for up to eighteen months following termination of employment.

### *Deductibility Cap on Executive Compensation*

U.S. federal income tax law prohibits us from taking a tax deduction for certain compensation paid in excess of \$1,000,000 to our named executive officers. However, performance-based compensation, as defined in the tax law, is fully deductible if the programs are approved by stockholders and meet other requirements. Our policy is to qualify our incentive compensation programs for full corporate deductibility to the extent feasible and consistent with our overall compensation goals as reflected in the summary compensation table below.

[Table of Contents](#)

We have taken steps to qualify stock options and performance awards under the 2006 Plan for full deductibility as “performance-based compensation.” Our Compensation Committee may make payments that are not fully deductible if, in its judgment, such payments are necessary to achieve our compensation objectives and to protect stockholder interests.

### Potential Payments Upon Termination or Change in Control

#### *Vikram Talwar and Rohit Kapoor*

*Severance.* If either Mr. Talwar’s or Mr. Kapoor’s employment is terminated by us without “cause” or by the executive for “good reason” (in each case, as described below), the executive will be entitled to severance consisting of:

- continuation of his base salary for 24 months;
- his actual bonus, if any, earned for the year of termination, determined as if he had been employed for the full year of termination, paid ratably over the remaining period and number of base salary payments; and
- continuation of life insurance coverage for 18 months. The life insurance coverage will terminate at the time the executive commences employment with another employer.

“Cause” will occur when:

- there is a final non-appealable conviction of or pleading of no contest to a felony, or a crime of moral turpitude which causes serious economic harm or serious injury to our reputation;
- the executive engages in fraud, embezzlement, self-dealing, gross negligence, dishonesty or other gross and willful misconduct which causes serious and demonstrable injury to us;

---

## Table of Contents

- the executive materially violates any of our material policies or materially, knowingly and intentionally fails to comply with certain applicable laws;
- the executive willfully fails to substantially perform his duties for 15 days (other than for reason of physical or mental incapacity) after we notify him;
- the executive fails to reasonably cooperate in a governmental investigation involving us;
- the executive fails to follow our board of directors' lawful instructions and does not remedy the failure for 15 days after we give him written notice;
- the executive's use of alcohol or drugs materially interferes with the performance of his duties; or
- the executive fails to take reasonable steps to end certain affiliations specified in his employment agreement within six months after a request by our board of directors.

"Good reason" means:

- the executive's duties or responsibilities are substantially diminished, or he is required to report to anyone other than our board of directors;
- the executive's title as our officer is adversely changed, except if the change occurs after a change in control and his new title and duties are similar to his old title and duties;
- the executive's base salary is reduced, or his target annual bonus opportunity is reduced below 75% of his base salary, unless a Company-wide decrease in pay is implemented;
- the location where the executive is based is moved more than 30 miles, and the new location is more than 30 miles from his primary residence in the metropolitan New York City area (other than a relocation to Delhi, India in the case of Mr. Kapoor);
- for Mr. Kapoor only, if we have relocated Mr. Kapoor to the metropolitan Delhi, India area, the location where Mr. Kapoor is based in Delhi, India is moved more than 30 miles, and the new location is more than 30 miles from Mr. Kapoor's primary residence in the Delhi, India area; or
- we breach any material term of the executive's employment agreement.

For Mr. Kapoor, good reason does not include a request by the board of directors that he relocate to India. Also, successive relocations of Mr. Kapoor between the metropolitan New York City area and the metropolitan Delhi, India area will also not constitute good reason, as long as each location where we base Mr. Kapoor is within 30 miles of the last business location at which Mr. Kapoor was based in that metropolitan area and within 30 miles of Mr. Kapoor's principal residence in that metropolitan area.

If the executive plans to terminate his employment for good reason, he must notify us within 30 days following the date the problem began and must allow us 15 days to remedy the problem.

*Change in Control Severance.* If a termination described above occurs within 12 months following a "change in control" that satisfies the requirements of Section 409A of the Code, the executive will receive, in lieu of the severance described above, a lump sum payment of \$999,000. If the change in control referenced in the preceding sentence does not satisfy the requirements of Section 409A of the Code, \$999,000 will not be paid in a lump sum but will instead be paid ratably for 24 months.

A "change in control" means any of the following events:

- any person or group becomes a beneficial owner (within the meaning of Rule 13d-3 under the Exchange Act) of more than 50% of either (1) the combined voting power of our then-outstanding voting securities entitled to vote in the election of directors or (2) our outstanding shares of common stock, assuming all rights to acquire common stock through options, warrants, conversion of

convertible stock or debt, and the like are exercised. Certain acquisitions by our stockholders, Oak Hill Partners, L.P., FT Ventures and their affiliates, will not trigger a change in control;

- a majority of the members of our board of directors changes, except that the election of any new director whose election or nomination was approved by at least a majority of our incumbent directors will not be regarded as a change in the majority for these purposes;
- our dissolution or liquidation;
- the sale or disposition of all or substantially all of our business or our assets; or
- consummation of a reorganization, recapitalization, merger, consolidation or similar transaction with another entity. A transaction will not be a change in control if after the transaction:
  - more than 50% of the total voting power of the resulting entity or its ultimate parent is represented by what were our outstanding voting securities before the transaction in substantially the same proportion among holders;
  - no person or group is or becomes the beneficial owner of more than 50% of the total voting power of the outstanding voting securities eligible to elect members of the board of directors of the parent or surviving company; and
  - at least a majority of the members of the board of directors of the parent or surviving company following the transaction were our board members when our board first approved the transaction.

*Death or Disability.* If either Mr. Talwar's or Mr. Kapoor's employment terminates on account of death or is terminated by either the executive or us for "Disability" (as defined in the relevant employment agreement), the executive will be entitled to a pro-rated portion of the projected bonus amount for the year of termination.

*Post-Termination Health Benefits.* When Mr. Talwar's or Mr. Kapoor's employment ends for any reason other than termination by us for cause or a voluntary termination by the executive, we will pay on behalf of the executive and his eligible dependents the cost of continued coverage under our group health plan for 18 months in accordance with applicable federal law governing continuation group health plan coverage (COBRA). These payments will end when the executive becomes eligible for comparable health benefits from another employer. If the executive elects coverage under COBRA, we have agreed to help him obtain an individual health policy at his cost when his COBRA coverage expires.

*Noncompete and Nonsolicit Provisions.* Each of Messrs. Talwar and Kapoor is subject to confidentiality restrictions and noncompete, non-disparagement and nonsolicit/no-hire restrictions during his employment and for one year thereafter, unless his agreement ends because we do not renew the term. If we do not renew the term and we pay the executive an amount equal to his base salary for one year, the restrictions remain in place for one year following termination of employment.

*Equity Award Treatment.* If Mr. Talwar's employment ends at the expiration of the term of his employment agreement because we give a notice of nonrenewal of the term of that agreement, or if a change in control occurs (as defined in our 2006 Plan, which definition is the same definition set forth above in "Change in Control Severance" on page 31), any portion of his stock options and restricted stock which would have vested in the one year period following the termination of employment or change in control (as applicable) will become vested on the termination date or the consummation of the change in control (as applicable).

If Mr. Talwar's employment is terminated by us without cause (as defined on page 30, above) in specific contemplation of or following a change in control or if Mr. Talwar resigns for good reason (as defined on page 31, above) following a change in control, his stock options and restricted stock award will become fully vested. Mr. Talwar will need to execute a standard release of employment-related claims in order for his restricted stock award to vest in such a case.

If Mr. Kapoor's employment ends at the expiration of the term of his employment agreement because we give a notice of nonrenewal of the term of that agreement or if a change in control occurs (as defined above), any

## Table of Contents

portion of his stock options and restricted stock which would have vested in the one year period following the termination of employment or change in control (as applicable) will become vested on the termination date or the consummation of the change in control (as applicable).

If Mr. Kapoor's employment is terminated by us without cause (as defined on page 30, above) in specific contemplation of or following a change in control, or if Mr. Kapoor resigns for good reason (as defined on page 31 above, as it applies to Mr. Kapoor) following a change in control, his stock options and restricted stock will become fully vested and exercisable. Mr. Kapoor will need to execute a standard release of employment-related claims in order for his stock option and restricted stock to vest in such a case.

### *Matthew Appel*

If Mr. Appel's employment with us is terminated without cause or he resigns for good reason (as described below), Mr. Appel will be entitled to severance equal to one times to his annual base salary then in effect. On a change in control (as defined using the same definition set forth above for Mr. Talwar and Mr. Kapoor), the vesting of all of Mr. Appel's outstanding equity awards will be advanced by one year. For example, since Mr. Appel's awards vest as to 10%, 20%, 30% and 40% of the award on each of the first four anniversaries of the date of grant, then if he were 10% vested in the award immediately prior to the change in control, Mr. Appel will be 30% vested in the award immediately after the change in control. In addition, if (i) Mr. Appel's employment is terminated without cause at any time after a change of control or in specific contemplation of a change of control or (ii) Mr. Appel resigns with good reason (as defined below) at any time following a change in control, Mr. Appel will also be entitled to immediate vesting of any unvested options to purchase common stock and any unvested shares of restricted stock.

"Cause" will occur when:

- there is a final non-appealable conviction of or pleading of no contest to a felony, or a crime of moral turpitude which causes serious economic harm or serious injury to our reputation;
- Mr. Appel engages in fraud, embezzlement, self-dealing, gross negligence, dishonesty or other gross and willful misconduct which causes serious and demonstrable injury to us;
- Mr. Appel materially violates any of our material policies or materially, knowingly and intentionally fails to comply with certain applicable laws;
- Mr. Appel willfully fails to substantially perform his duties for 15 days (other than for reason of physical or mental incapacity) after we notify him in writing of his need to substantially improve his performance;
- Mr. Appel fails to reasonably cooperate in a governmental investigation involving us;
- Mr. Appel fails to follow his supervisor's lawful instructions and does not remedy the failure for 15 days after we give him written notice; or
- Mr. Appel's use of alcohol or drugs materially interferes with the performance of his duties.

"Good reason" means:

- Mr. Appel's duties or responsibilities are substantially reduced, or he is required to report to anyone other than our board of directors, chief executive officer or president;
- his title as our officer is adversely changed, except if the change occurs after a change in control and his new title and duties are similar to his old title and duties;
- his base salary or annual cash bonus opportunity is reduced, other than a proportionate reduction affecting all members of the Company's Executive Committee;
- the location where he is based is moved more than 30 miles following a change in control, and the new location is more than 30 miles from his primary residence; or
- we breach any material term of the employment agreement.

If Mr. Appel plans to terminate his employment for good reason (other than after relocation more than 30 miles following a change in control), he must notify us within 30 days of the date the problem began and must allow us 15 days to remedy the problem.

If we terminate Mr. Shashank's employment without cause (as described below), we will be required to pay Mr. Shashank (i) a one-time lump sum severance payment, payable within three business days of termination, equal to three months' of his then-current base salary, and (ii) beginning on the third month anniversary of his termination, payment of his then-current base salary for nine months through our regular payroll practices. Beginning three months after his termination, Mr. Shashank is required to actively seek comparable employment and upon subsequent employment, we will reduce the additional salary payments during the nine-month period by any base salary Mr. Shashank receives during such period from another employer.

We will also maintain Mr. Shashank's health and dental coverage until the earlier of the end of the severance period or, and in respect of each of health and dental coverage considered separately, on the date on which Mr. Shashank and his eligible dependents become covered under another employer's health or dental coverage.

On a change in control (as defined in the 2006 Plan, which is summarized under the heading “Change in Control Severance” on page 31), the vesting of all of Mr. Shashank’s outstanding equity awards will be advanced by one year. For example, if one of Mr. Shashank’s awards were vesting ratably over a four-year period and he had been 25% vested in the award immediately prior to the change in control, Mr. Shashank will be 50% vested in the award immediately after the change in control. In addition, all of Mr. Shashank’s outstanding option awards will become fully vested if, following or in specific contemplation of a change in control, he is terminated without cause or if, following a change in control, he voluntarily terminates his employment for good reason (as described below).

“Good reason” means:

- Mr. Shashank’s duties or responsibilities are substantially diminished, or he is required to report to anyone other than our board of directors, chief executive officer or president;
- his title as our officer is adversely changed, except if the change occurs after a change in control and his new title and duties are similar to his old title and duties;

(3) The grant date fair value of the equity awards granted in 2008, determined in accordance with FAS 123(R), is set forth in the table below:

<u>Name</u>	<u>Grant Date Fair Value of Stock Awards (\$)</u>	<u>Grant Date Fair Value of Option Awards (\$)</u>
Garen K. Staglin	80,920	—
Mohanbir Sawhney	26,800	—

Edward Dardani	25,920	—
Kiran Kamik(4)	—	99,450
Clyde W. Ostler	28,960	—

(4) Mr. Kamik joined our board of directors on September 25, 2008.

From calendar year 2008 onward, each member of our board of directors other than Messrs. Talwar, Kapoor and Kamik received a grant on the anniversary of his board service date of restricted stock units representing 4,000 shares of our common stock. The grants provide that the restricted stock units will vest on the earlier of:

- the first anniversary of the date of grant;
- the end of the reporting person's term on our board of directors; and
- the occurrence of a "change in control", as defined in the 2006 Plan.

Holders of restricted stock units do not receive the underlying share of common stock until the units have vested and are settled. The restricted stock units issued to each of our directors other than Messrs. Talwar and Kapoor will settle on the earlier of:

- such directors death;
- the occurrence of a "change in control", as defined in the 2006 Plan that satisfies the requirements of Section 409A of the Code; and
- 180 days following the end of such director's term on our board of directors.

On September 25, 2008, Mr. Kamik was granted an option to purchase 30,000 shares of our common stock, which vests 25% on each of the first four anniversaries of the date of grant.

### *Key Compensation Actions for 2008*

In 2008, each member of the board of directors may elect to receive all or a portion of his or her annual fees earned for service on the board of directors during a subsequent calendar year, whether as part of the annual retainer or committee chairperson fee or otherwise, that would otherwise be payable in cash, in the form of a grant of stock options under the 2006 Plan.

Directors who elect to receive any portion of their cash director fees in the form of stock options will receive a stock option grant effective as of the first business day of the following year. Each stock option grant (i) will have a per share exercise price equal to the fair market value of a share of company common stock on the date of grant (under the 2006 Plan, this is currently determined as the average of the high and low prices on the trading day prior to the date of grant), (ii) will vest and become exercisable on December 31 of the year in which the option is granted, subject to the individual remaining as a member of the board on such date, and (iii) otherwise will be subject to the terms and conditions of the 2006 Plan. The number of shares of our common stock subject to the stock option will be determined such that the Black-Scholes value (as determined by us) of the stock option is equal to the dollar amount of director fees the director is electing to defer.
