Vikram Talwar, Executive Chairman of EXL, commented: "By focusing on providing transformational outsourcing solutions to our clients, maintaining our leading client satisfaction scores and high-quality global delivery, and continually expanding our service capabilities, EXL has delivered on its expectations for the first quarter of 2008. The recently announced senior management changes at EXL should position the leadership team to deliver continued growth of our business."

Rohit Kapoor, President and CEO of EXL, commented: "The first quarter of 2008 saw many exciting developments for EXL. We completed preparations for the launch of our new Philippine operations center with a major U.S. insurance provider and added key management talent to the organization. I am particularly enthusiastic about the strong demand in our transformation services business despite the difficult economic environment and the positive reception we are receiving from clients for our integrated transformation and outsourcing solutions."

Matt Appel, CFO of EXL, commented: "EXL's first quarter results reflected 1% revenue growth as compared to the fourth quarter of 2007 and stable operating margins as reflected in our guidance for 2008. Our first quarter revenues and operating margin were driven by accelerating growth in our transformation services business and flat revenues in our outsourcing business attributable to the 3% depreciation of the British Pound as compared to the fourth quarter of 2007. As a result of our first quarter results and visibility to the rest of 2008, we are maintaining our calendar year 2008 revenue guidance at \$205 to \$210 million, adjusted operating margin guidance at 12% and earnings per share guidance at \$0.80 to \$0.85 per diluted share."

#### Financial Highlights -- First Quarter 2008

- Revenues for the quarter ended March 31, 2008 increased 27.8% to \$50.9 million from \$39.9 million in the quarter ended March 31, 2007. First quarter revenues grew by 1.1% as compared to the quarter ended December 31, 2007 due partially to strong sequential growth of 9.5% in transformation services revenues offset by the adverse impact of depreciation of the British Pound on outsourcing revenues. Outsourcing revenues for the first quarter of 2008 of \$41.7 million reflects growth of 27.3% as compared to the first quarter of 2007. Research and analytics revenues for the first quarter of 2008 of \$5.0 million grew 17.3% as compared to the first quarter of 2007. Advisory services revenues of \$4.3 million for the first quarter of 2008 reflects growth of 48.9% as compared to the first quarter of 2007.
- Gross margin for the quarter ended March 31, 2008 was 36.5% compared to 38.6% for the quarter ended March 31, 2007 and 39.3% for the quarter ended December 31, 2007. First quarter 2008 gross margin decreased as compared to the previous quarter due to the impact of exchange rate fluctuations.
- Operating margin for the quarter ended March 31, 2008 was 9.9%, compared to 12.4% for the quarter ended March 31, 2007 and 9.9% for the quarter ended December 31, 2007. Adjusted operating margin, excluding the impact of stock-based compensation expense and amortization of intangibles, for the quarter ended March 31, 2008 was 12.2% compared to 15.9% for the quarter ended March 31, 2007 and 12.8% for the quarter ended

December 31, 2007. First quarter 2008 operating margin was negatively impacted as compared to the quarter ended December 31, 2007 by unfavorable exchange rate fluctuations as well as start-up costs attributable to our new Philippine operations center.

- Net income to common stockholders for the quarter ended March 31, 2008 was \$6.8 million compared to \$5.4 million for the quarter ended March 31, 2007 and \$9.8 million for the quarter ended December 31, 2007. Net income for the first quarter of 2008 was negatively impacted as compared to the quarter ended December 31, 2007 by a reduction in interest income due to lower market interest rates, lower gains from foreign exchange hedge contracts and a higher effective tax rate (8.0% as compared to -11.3%).
- Revenues generated from our largest client represented 23.5% of total revenues for the quarter ended March 31, 2008 as compared to 27.7% for the quarter ended March 31, 2007. - Transformation Services revenues grew 9.5% as compared to the previous quarter based on the commencement of new work with existing Outsourcing Services customers and the initiation of five new customer relationships.
- Outsourcing Services migrated 20 new processes for nine clients during the quarter; this revenue growth was
  offset by a decrease in revenues due to the impact of foreign currency fluctuations and a decrease in revenues
  from our second largest customer.

  - Adjusted operating margin, excluding the impact of stock-based compensation expense and amortization of intangibles, of 12%.
  - o GAAP EPS of \$0.80 to \$0.85 per diluted share.
  - Second quarter of 2008 expectation that operating margin will be negatively impacted by the cost of annual salary increments and costs associated with the opening of our Philippines operations center.

# EXLSERVICE HOLDINGS, INC. CONDENSED CONSOLIDATED STATEMENTS OF OPERATIONS (UNAUDITED)

Reconciliation of Adjusted Financial Measures to GAAP Measures

In addition to its reported operating results in accordance with U.S. generally accepted accounting principles (GAAP), EXL has included in this release adjusted operating measures that the Securities and Exchange Commission defines as "non-GAAP financial measures." Management believes that these adjusted financial measures, when read in conjunction with the Company's reported results, can provide useful supplemental information for investors analyzing period to period comparisons of the Company's results because the adjustments eliminate the impact of the following two items which do not directly link to the Company's ongoing performance: (i) differences in stock compensation accounting policies between periods and (ii) expenses associated with the amortization of acquisition-related intangibles. The Company also believes that it is unreasonably difficult to provide its financial outlook in accordance with GAAP for a number of reasons including, without limitation, the Company's inability to predict its future stock-based compensation expense under FAS 123R and the amortization of intangibles associated with further acquisitions. The adjusted financial measures disclosed by the Company should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and the financial results calculated in accordance with GAAP and reconciliations from those financial statements should be carefully evaluated.

The following table shows the reconciliation of these adjusted financial measures from GAAP for the three month periods ended March 31, 2008 and March 31, 2007:
